## From the Principal's Desk

It's been a really busy couple of weeks for our students. We had the pleasure of presenting to an international conference of educators from all around the world. Our students presented their learning pathways and how student agency builds student's skills. Eadie, Alisha and Nina did such a great job at presenting online.

You can see footage on our PNTV Facebook or You tube page.

The Building School Community sub committee of Governing Council are asking parents to fill in a short survey to gather ideas for future events and offerings at our school. Please fill in the short survey to provide feedback. <https://forms.gle/ZEu5iL8BrYfyGKBDA>

We had a fantastic response to our first Fathering Project event last week. We had over 60 Dads have breakfast with their kids and help build a Lego stunt bike to play with. It was a great event and so much fun to see everyone together again.

We also had the Supercars here in preparation for the event next week. Our students in rooms 6 and 7 will be attending a day at the races this week. Tune into PNTV to get the story.

This week on Monday morning we will be welcoming our new Receptions to their first transition visits. We are currently doing class placements for 2023, we are teetering on making a new class. To be as accurate as possible, If you know you will be leaving us next year please notify the front office ASAP.

Marg Clark

## Lego League

Congratulations to the Intergentix Lego League team who did an amazing job last Thursday finishing 5<sup>th</sup> in the robotics game. This team working independently in a short time frame. Some of the feedback they were given was included, that they used their time effectively and that their solution to a problem was also something that was achievable using an idea that existed and changing it to use for another purpose!

## REMEMBRANCE DAY SERVICE – Lest We Forget

Friday 11 November 2022 marked the 104th anniversary of the Armistice which ended the First World War (1914–18). On this day, a small group of Senior Studio students participated in the Remembrance Day service at the Enfield RSL. Students and community members observed a one-minute silence at 11am in memory of those who served our country in all wars, and to remember those who continue to serve our country today. We appreciate our students' participation in this ceremony and thank them for representing our school community in such a respectful manner.

## SENIOR STUDIO ATTENDS PUBLIC EDUCATION STUDENT FORUM

On Tuesday 8 November, Eadie Woodrow and Asees Paneser, participated in a Public Education Student Forum at the Adelaide Convention Centre. Students across Adelaide came together to share what they value about learning with Education Department leaders in the aim of influencing the future of learning in South Australia.

Eadie and Asees heard presentations from the Chief Executive of the South Australian Education Department, Martin Westwell and the Minister of Education, Blair Boyer. They completed online surveys and actively participated in break-out sessions where they had conversations with students from a wide variety of schools, discussing topics such as student wellbeing, student agency, the curriculum and their learning experiences in the Senior Studio which really impressed and inspired them.

All the feedback collected from this forum will be shared with school principals and other leaders across the state in 2023, and will be used to create statements and guidelines to strengthen our education system in future.

Congratulations to Eadie and Asees for their outstanding efforts in representing the Prospect North Primary School community and being strong engaged citizens- actively working to create positive change in education for all students in the future. You were AWESOME!

## ODE POETS IN ROOM 9

An Ode is an ancient Greek poetry form. We enjoyed writing them because they can be quite silly and use the device of hyperbole (exaggeration).

### AN ODE TO MY BOXING GLOVES

Oh my perfect boxing gloves!  
I cannot punch without you  
You defend me from so many hard hits  
I feel like Mike Tyson together with you.  
You are the colour blue like the ocean  
You are fast like a lightening bolt!  
I am a champion boxer with you on my hands!

Oh boxing gloves, I adore you!!  
By Deepinders (a trainee boxer)

### AN ODE TO BOOKS

Oh book,  
My beloved book  
You make my life complete!  
Without you, my life is ruined -  
I could not last a day -  
Oh book, best book!  
Your stories are totally amazing -  
When I open your cover and feel your pages,  
They are so smooth like cream!  
Oh book, best book -  
You make my life complete!

By Adelaide (a bookworm!)

### AN ODE TO CHOCOLATE!

Oh, my beloved chocolate -  
You are simply the best!

I wouldn't have any energy without you -  
And I don't care if you give me cavities!!!  
I love you more than all the lollies in the world!

I love your rich, dark brown colour,  
And your creamy caramel centre is so divine!  
I will eat all my vegies just for one bite!  
By Naksh (a chocolate!)

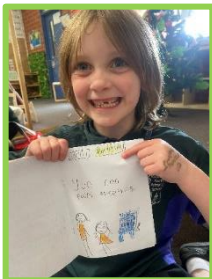

### AN ODE TO THE GAME OF CHESS

Oh Chess, Oh Chess,  
I adore you so much!  
You make me feel like a world champion  
Your ancient black and white pieces are soldiers  
at my command.  
You are the game that excites my brain!  
Your pattern of white and black is a battleground,  
And I am your mastermind queen!  
By Tanveer (a talented chess player)

1. We use the 5 finger technique to text what we know about our topic.

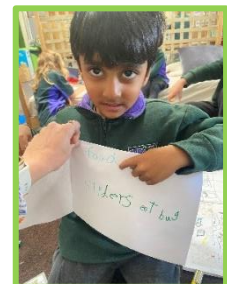

2. we use special features in our books such as contents page, headings and page numbers.

## Room 2 - Reception

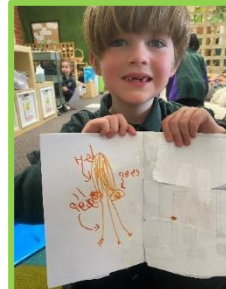

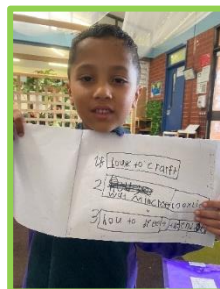

We have been learning how to create Information Texts in Writer's Workshop.

We have chosen an "Expert Topic" to write a book about.

3. we use diagrams to give accurate information.

4. When the book is finished it will teach the reader about the topic.

Last Tuesday the Year 1/2 authors and illustrators invited their families upstairs into their learning spaces to share their amazing Hero books! We celebrated the writing process that the Year 1/2s were involved in, through drafting, editing and publishing their Hero narrative books! Each student used their incredible imaginations to design a hero, which they made a poster for and created out of lego, plasticine or 3D printed using Maker's Empire and these heroes were the protagonists for our books! Students initially drafted and co-edited, through writing conferences. They then illustrated the typed and edited copy of the book, painting their front covers to give the complete published and bound book which we shared on Tuesday! Our books followed the structure of a hero's journey and included many writing crafting and illustrative devices such as onomatopoeia, sizzling start, big and bold, show not tell, punctuation for emphasis such as ellipses, direct speech with dialogue tags, close up visuals, background details and more! We are so proud of our efforts and we had an amazing time sharing our journey with our families, other students, teachers and leadership at our book launch! ♥

## Rooms 6/7 Marine Discovery Centre

On Thursday, November 10<sup>th</sup> Rooms 6 and 7 visited the Marine Discovery Centre as part of our STEM research projects this semester. We have been learning about marine habitats and how we can help preserve these unique environments.

First, we went beachcombing along Henley Beach, where we observed the marine and beach habitats and collected and identified the plant and animal specimens we found there. We also picked up lots of litter on the beach including wrappers, little bits of plastic, fishing line and bottle caps.

Before we left, we returned all the natural habitat specimens to the beach and we removed and disposed of all the litter we found. The beach was much cleaner when we left it!

In the Marine Discovery Centre we learned about the local plant and animal species that are a part of our local marine habitat. We went on a virtual reality scuba dive with seals and learned about how long it takes for different types of litter to breakdown in our environment.

Did you know some things can take up to 600 years or even a million years to breakdown in the environment? Make sure your litter goes in the bin and not in our ocean!
